RE: Southwest General Contractors – Bond Program Confirmation

To Whom It May Concern:

This letter will serve as a confirmation of our relationship with Mr. Gary Purser, Mr. Wes Purser and their construction company, Southwest General Contractors in Amarillo, Texas.

I have personally known the Pursers since the inception of the company, more than 18 years ago. Further, Southwest General Contractors is well known to our agency as a reputable and professional general contracting company. As a result of these facts, and the financial integrity of the company, Southwest General Contractors maintains an excellent reputation within the construction industry and an outstanding relationship with their bonding company.

In our capacity as the bonding agent, we provide surety bonds for Southwest General Contractors through the Liberty Mutual Insurance Company. Liberty Mutual is U.S. Treasury listed, and they maintain an AM Best Rating of A+ XV ("Superior"). Liberty Mutual is also among the top three providers of surety bonds in the United States.

We have supported Southwest General Contractors on single projects up to the \$25,000,000 range. This is a comfortable project size for them and their bonding company. Further, I anticipate the bonding support for Southwest General Contractors will continue to increase, as they continue to grow their business.

Please note, this letter is offered as a bonding reference. It is not a bid bond or an assumption of liability by any referenced party.

Our agency is pleased to highly recommend the construction services of Southwest General Contractors. Upon your award of a construction contract to them, we are confident you will enjoy working with their professional organization.

We look forward to bonding your future projects with Southwest General Contractors. In the mean time, please feel free to contact us with any questions regarding their bonding relationship.

Very truly yours,

Douglas Moore
President
